30-Hour Accident Prevention Certificate Awareness Program

The NC Industrial Commission Safety Education Section is pleased to offer a new 30-Hour Accident Prevention Certificate Awareness Program.

This program is designed for awareness of safety as it relates to Accident Prevention. The training is focused towards reducing Workers' Compensation claims and costs. The target audience is safety and health managers and employees, plant and facility employees, maintenance staff, individuals new to the field, experienced safety and health professionals looking to expand their awareness. Maintenance staff, facility managers, and others with safety responsibilities will gain significant awareness.
