

## Kay Meyer

Kay Meyer has over 25 years of experience in private sector and government lines of business in the application of information technology. She has led in the design, development and support of information systems, including business process reengineering, data integration and business analytics, in manufacturing, contract management and finance industries.

Kay has worked with the North Carolina Office of the State Controller for fifteen years and currently serves as the Program Director for the Statewide Data Integration Program, with responsibility for the CJLEADS, a criminal justice data integration and analytics system, and NC FACTS, an enterprise fraud, waste and improper payment detection program, and the Government Data Analytics Center.

Kay holds a Bachelor of Science in Information Systems from the University of Virginia and a Masters of Business Administration in Finance from George Washington University.
