ACCIDENT PREVENTION AND SAFETY SERVICES

The accident prevention and safety & health services offered by the Safety Education Section of the North Carolina Industrial Commission are established to provide competent, practical instruction in accident prevention and workers' compensation. The courses and workshops are designed for the supervisor and employee in the interest of reducing accidents and their cost in North Carolina. Our schedule offers professional programs with experienced safety consultants from the Industrial Commission. ***A Legislative mandated Fee Schedule is now in effect. (See Fee Schedule)*** Programs are scheduled to meet the production needs of client companies. We request that as much lead time as possible be given for course scheduling. Classes vary from one hour to eight hours. Call your area Safety Consultant for more information and scheduling.

COMPETENT PERSON SCAFFOLDING

Critical to scaffolding safety are the use of competent persons for the design, erection/dismantling, and maintenance of scaffolds, and trained workers for their use. **Please call Eric Johnson at 919-218-3567 for more information. (See Fee Schedule)**

FIRST AID AND CPR/AED COURSE

National Safety Council (NSC) First Aid and CPR Course is offered through the Industrial Commission. The eight-hour presentation is taught at the employer site. A NSC First Aid book is required for each student. The course is excellent first aid and CPR/AED training for employees with a clear, detailed text supplemented by visual aids. NSC First Aid and CPR/AED books must be ordered from the NSC at the time of scheduling through our safety consultant. NSC First Aid and CPR/AED Certificates are issued to those satisfactorily completing the course. **(See Fee Schedule)**
